

Stokvel Management Platform

UML Diagrams

Organised by Kruchten's 4+1 Architectural View Model

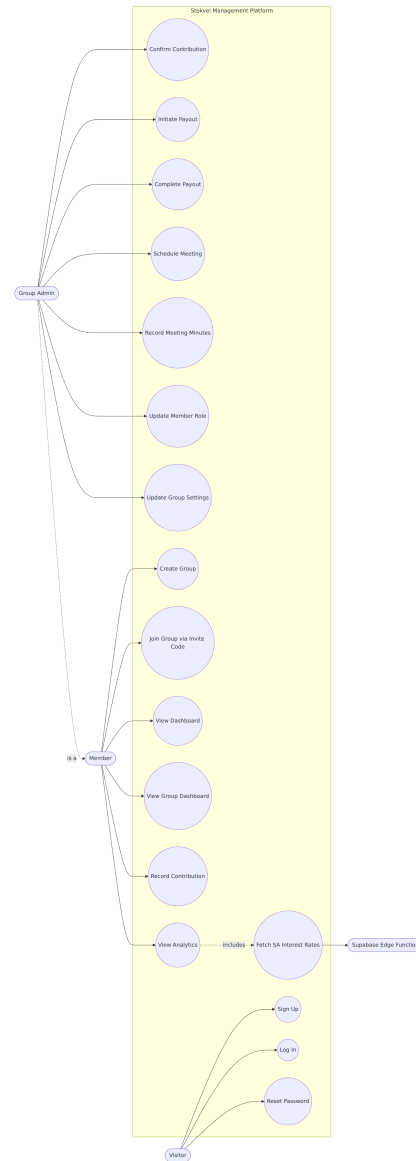

1. Class Diagram

Logical View — domain entities and relationships (from Supabase schema)

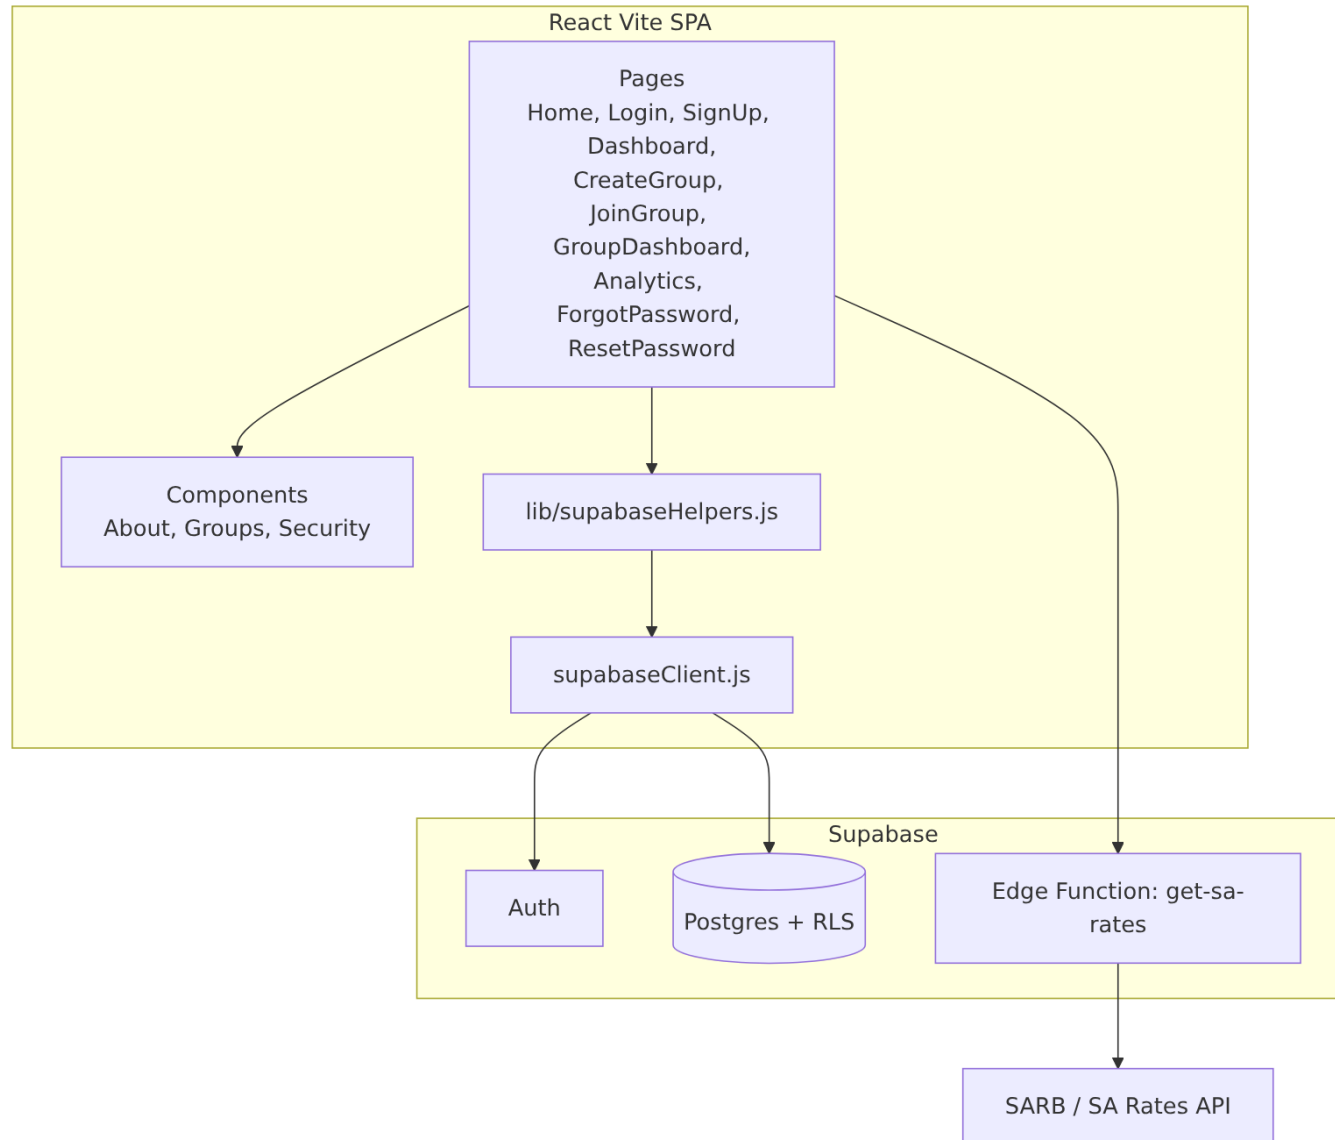

2. Use Case Diagram

Scenario View — actors and system use cases

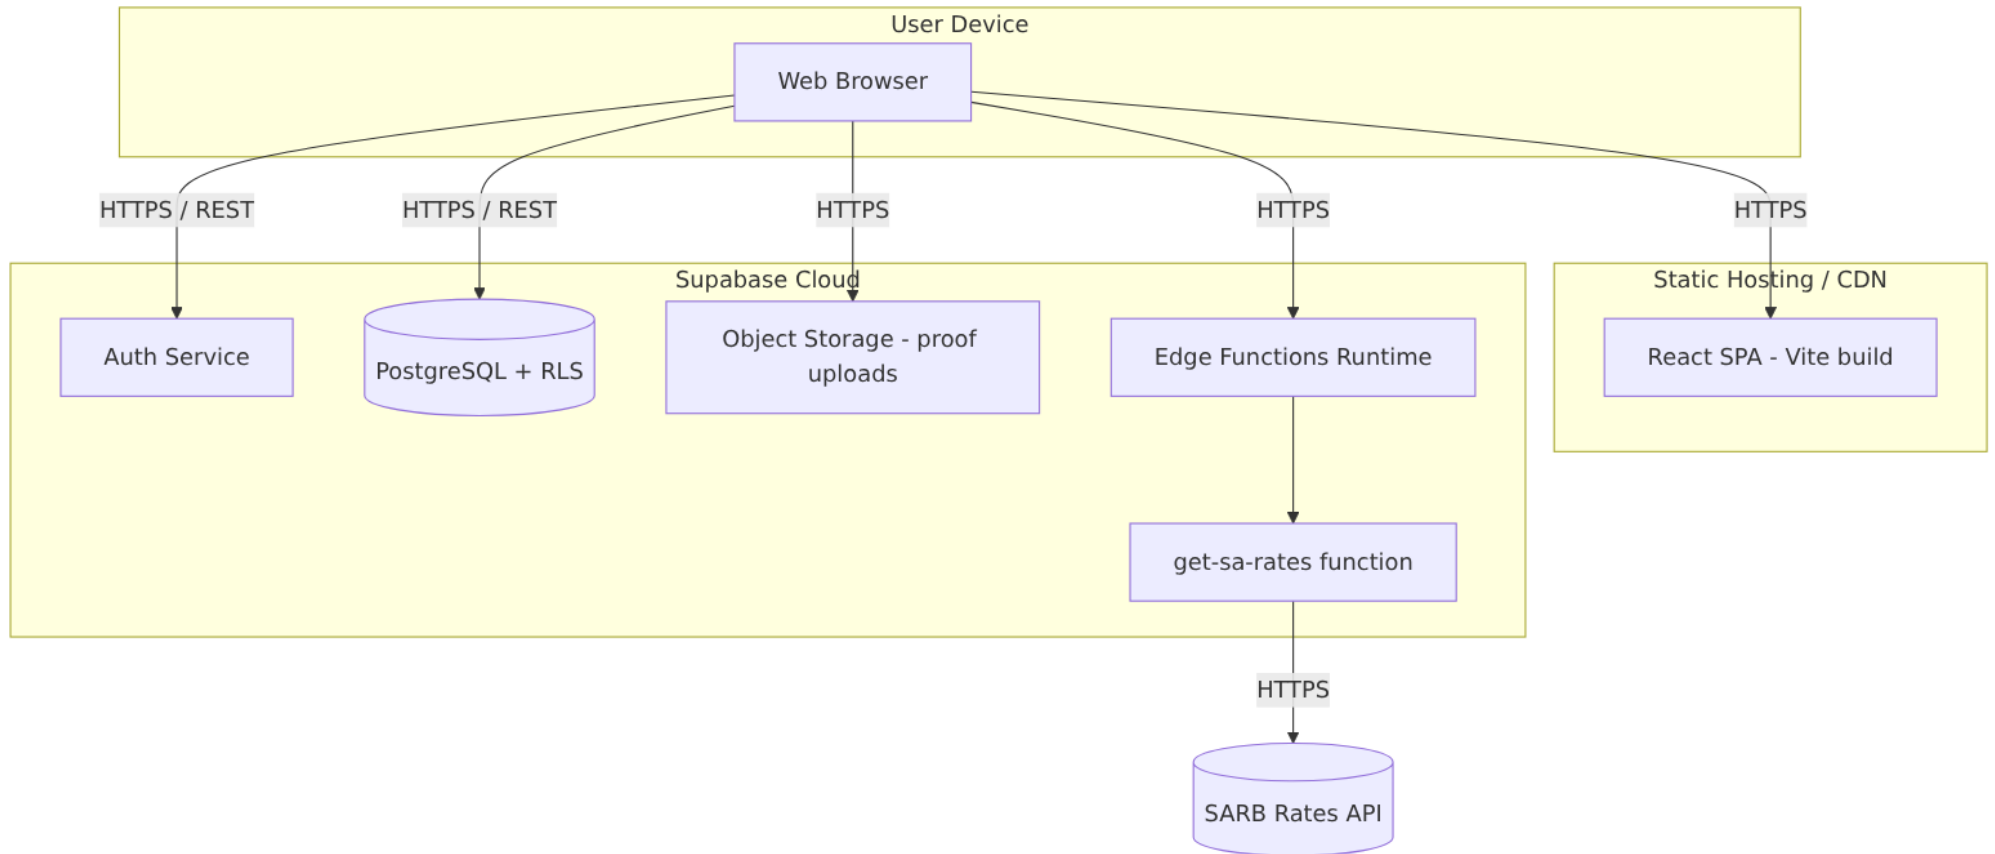

3. Component Diagram

Development View — application components and dependencies

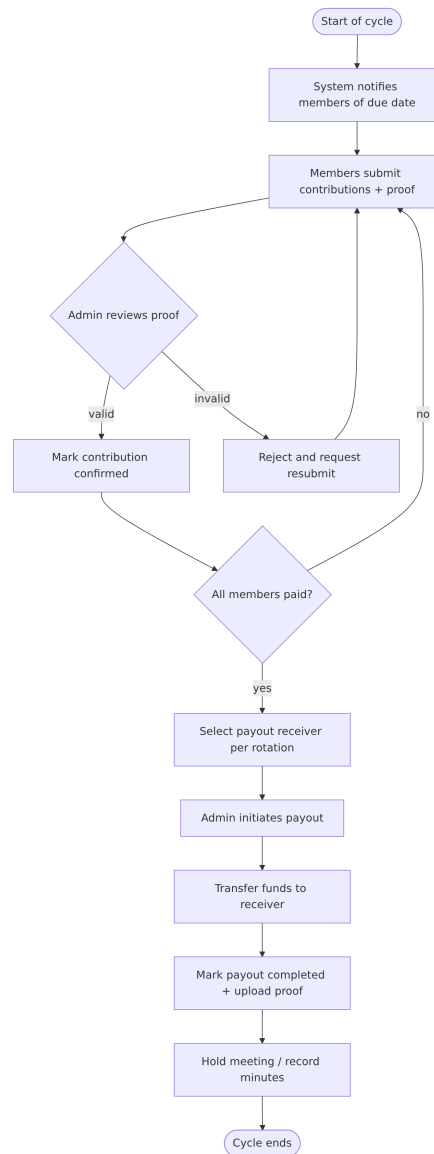

4. Deployment Diagram

Physical View — runtime nodes and connections

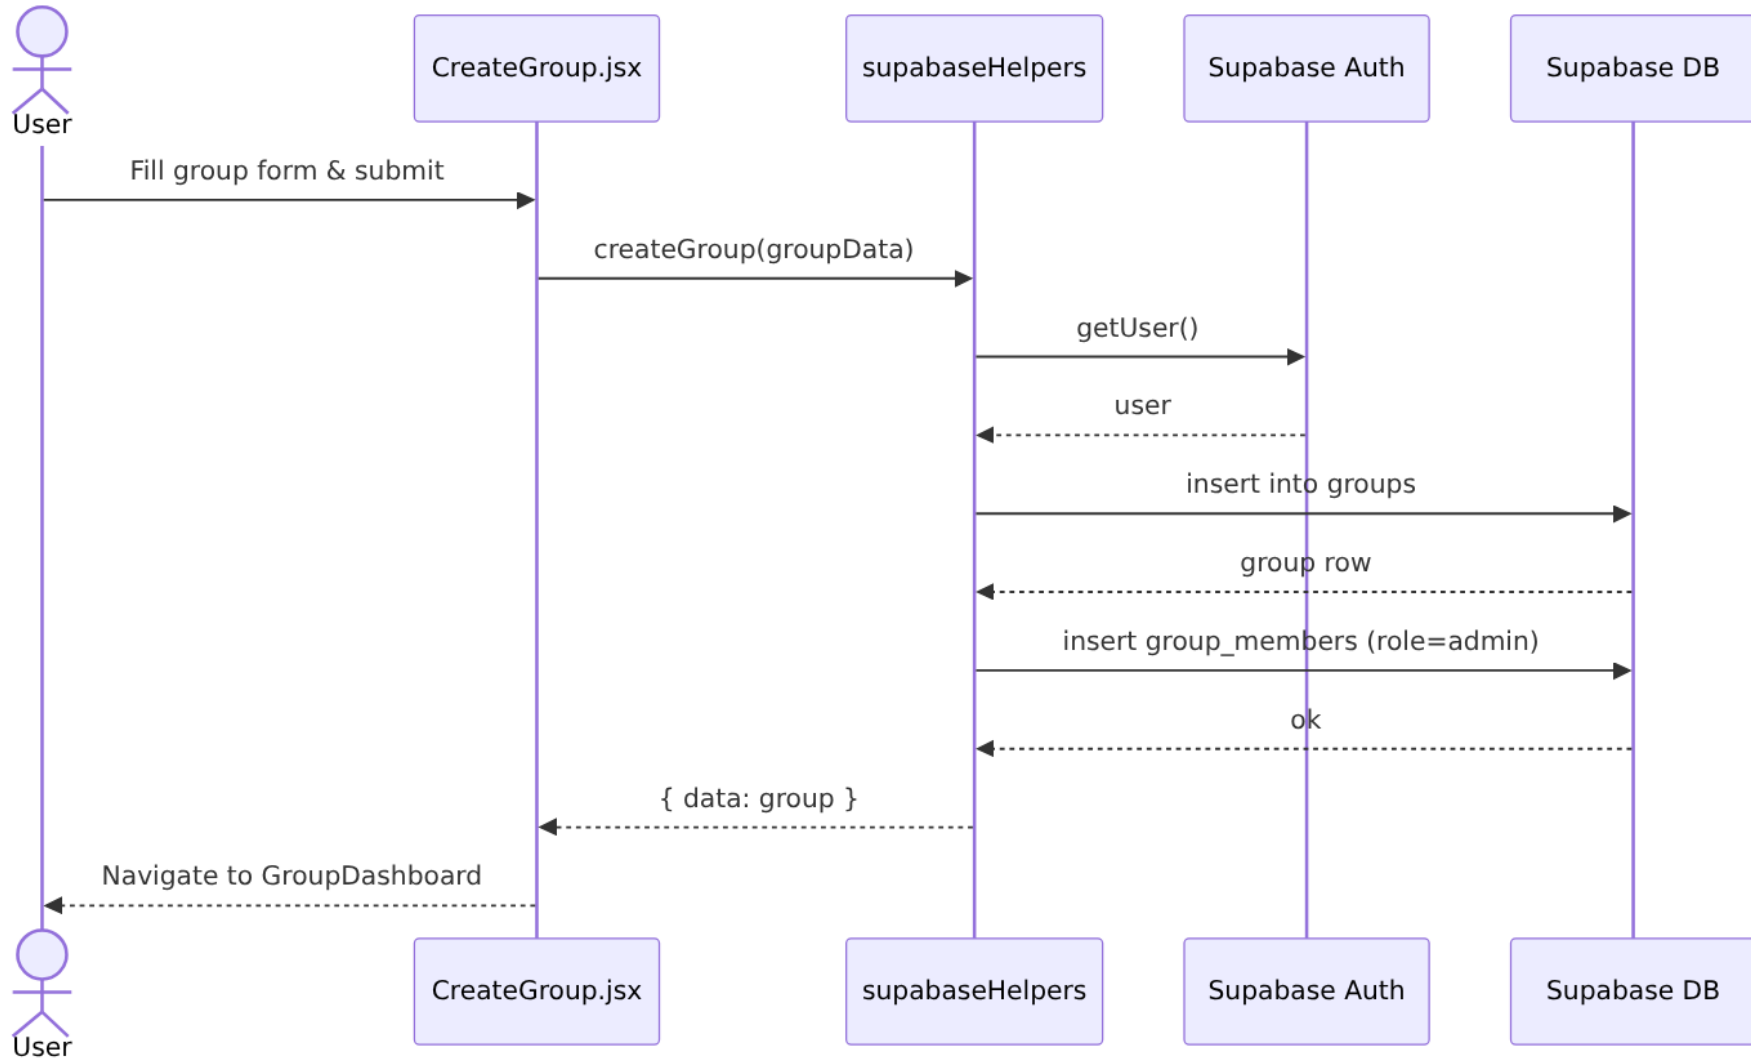

5. Activity Diagram — Monthly Stokvel Cycle

Process View — workflow from contribution to payout

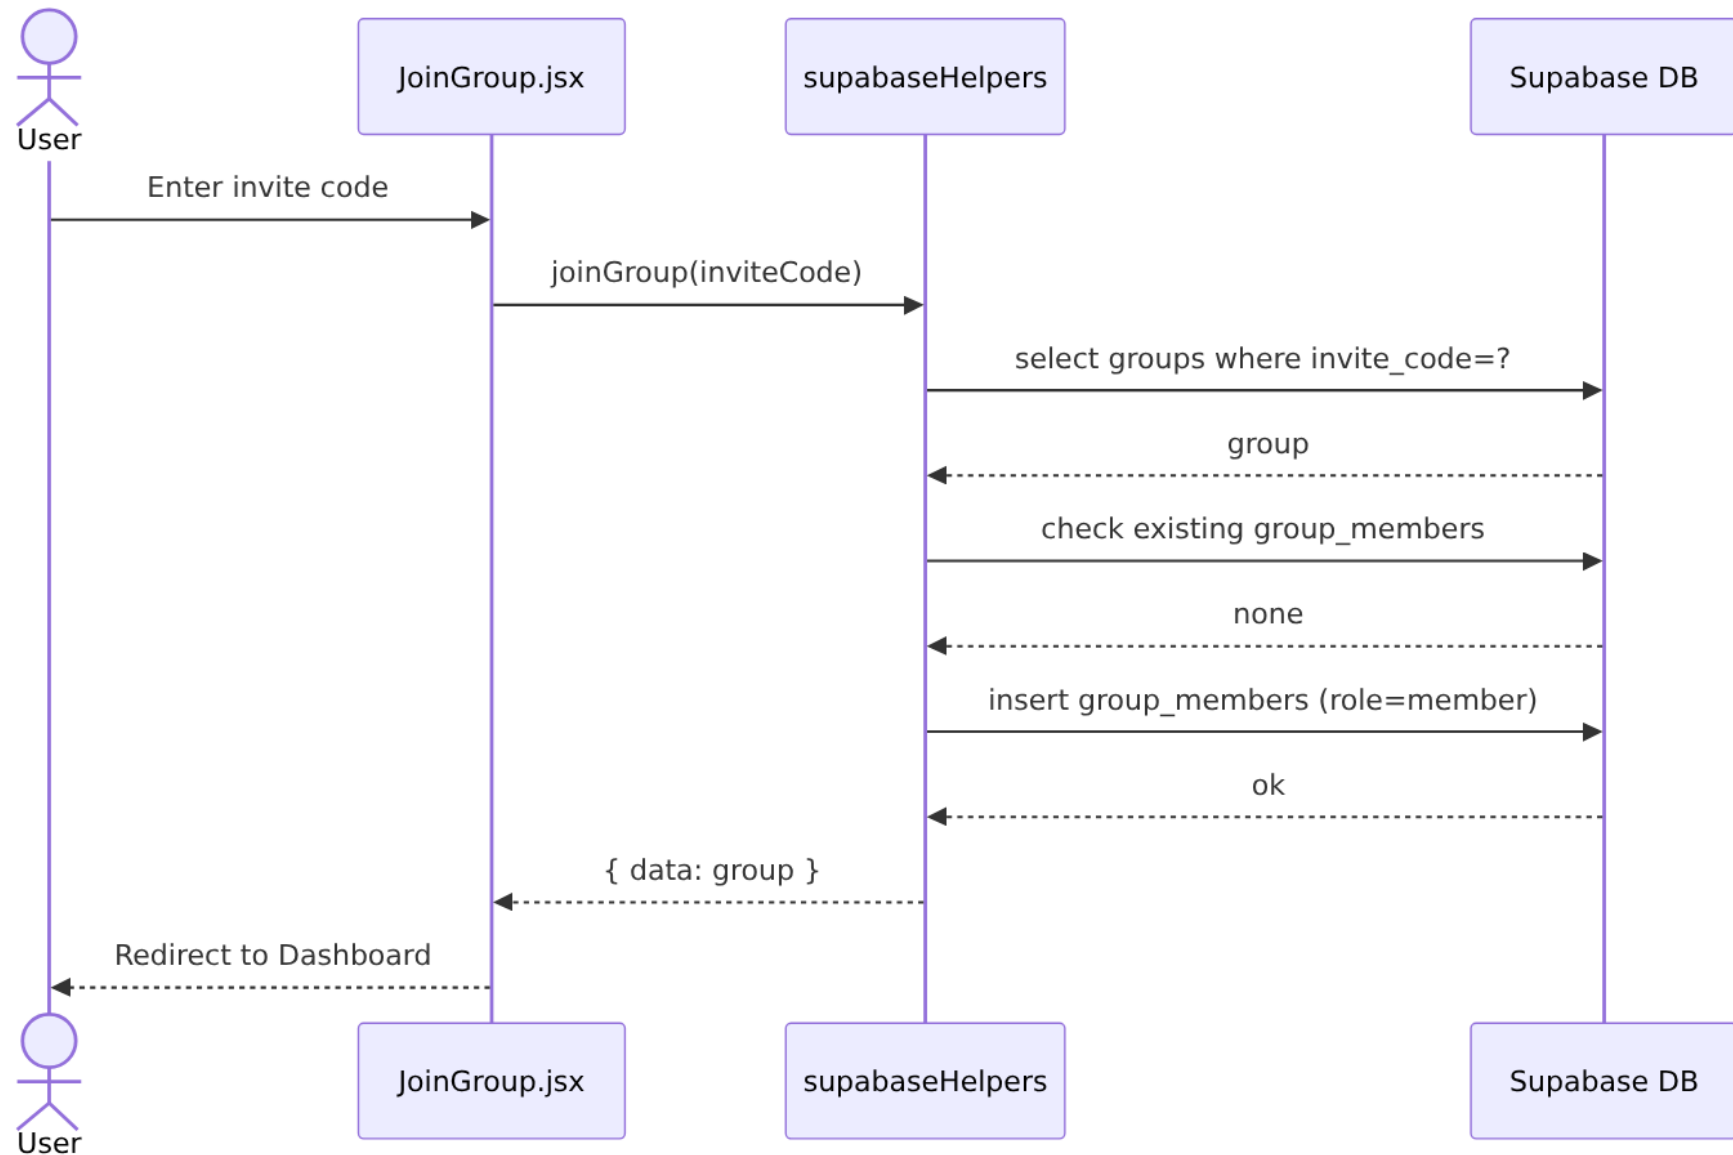

6. Sequence Diagram — Create Group

Process View — admin creates a new stokvel group

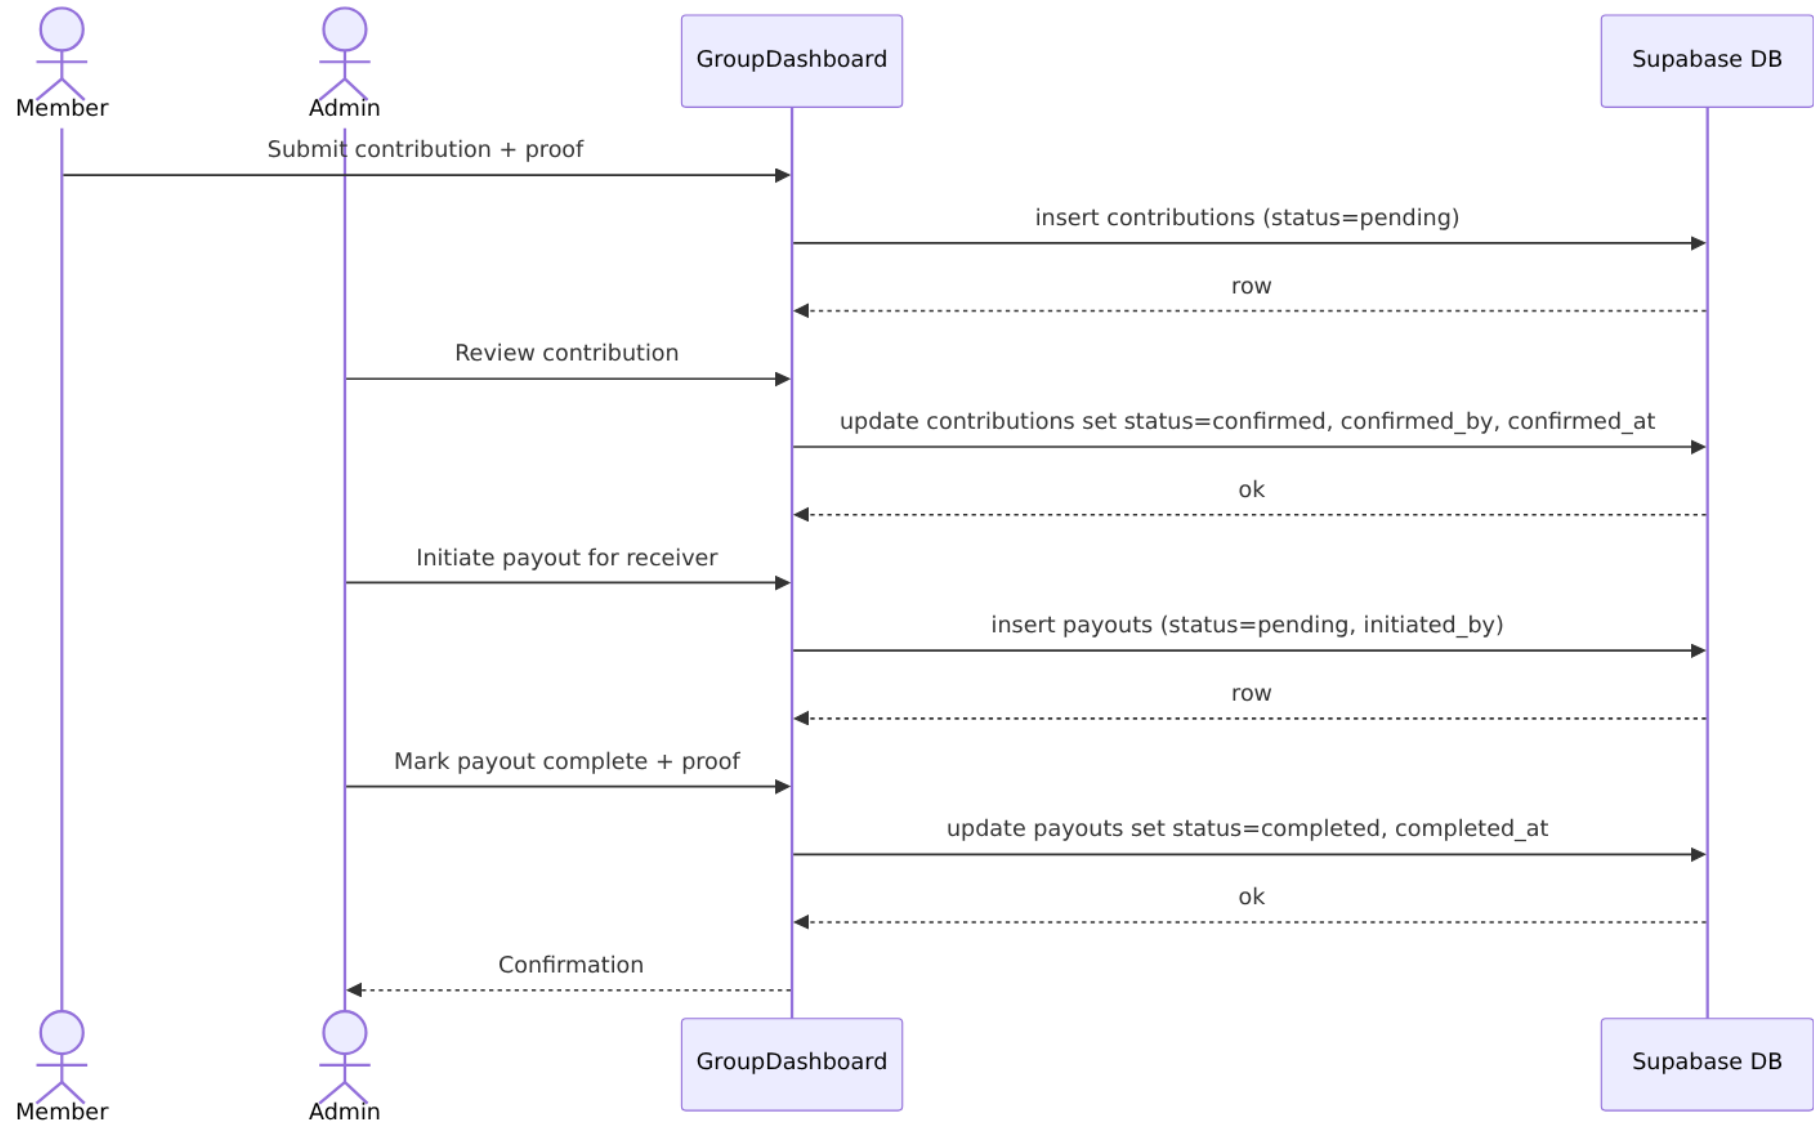

7. Sequence Diagram — Join Group

Process View — member joins via invite code

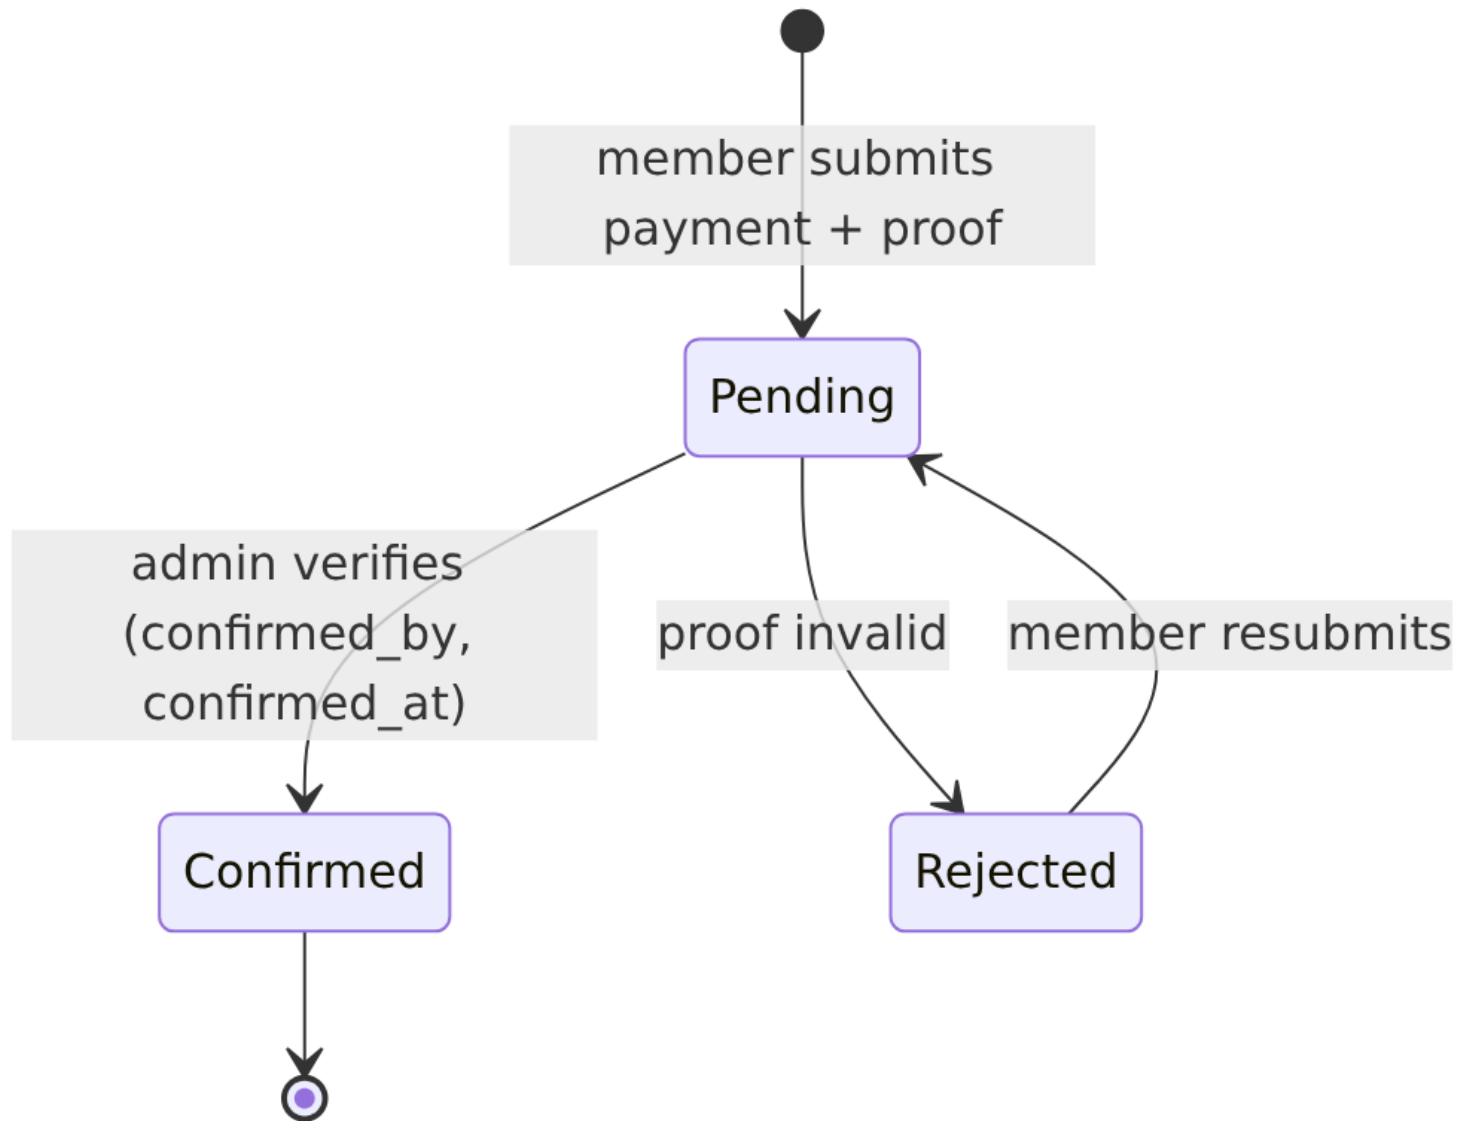

8. Sequence Diagram — Contribution and Payout

Process View — payment confirmation and disbursement

9. State Diagram — Contribution

Logical View — lifecycle of a contribution record

10. State Diagram — Payout

Logical View — lifecycle of a payout record
